# **Smart Bulk Procurement of Photovoltaic Energy Storage Containers in Singapore**

## Overview

---

What is Singapore's first energy storage system?

As part of the smart grid management system (SGMS) project at Singapore's ports, the city's first energy storage system (ESS) has been deployed at the Pasir Panjang Terminal and will be operational in the third quarter of this year. The ESS will contribute to helping the SGMS to improve the energy efficiency of port operations by 2.5%.

How can Singapore companies support Smart Grid implementation?

From large-scale energy storage technologies to portable power generation sets and smart battery management systems, Singapore companies provide energy storage solutions to support smart grid implementation, and stronger integration of renewable energies.

Can digital solutions make Singapore's Energy Systems more efficient?

She added that innovative digital solutions such as this project will play a part in making Singapore's energy systems more efficient and resilient.

Will Singapore's first virtual power plant be able to manage distributed solar Pho?

&D Awards 2019.Virtual Power Plant  
EMA and Sembcorp awarded a grant to Nanyang Technological University to develop Singapore's first Virtual Power Plant, which looks to control and manage distributed solar pho
