## Overview

---

Who is Asian solar?

Asian Solar is one of Southeast Asia's leading Solar Energy Firms. We are involved in design and installation of solar systems, as well as distributing solar panels from manufacturers in Thailand, China, and throughout Asia. Learn more about what we do Asian Solar has experience with diverse types of clients and installation scales.

Which country has the largest solar project in Southeast Asia?

Vietnam makes another appearance on this list with the Dau Tieng Solar Power Complex, the largest solar project in Southeast Asia. Located in Tay Ninh province, this complex has a combined capacity of 420 MW and spans over 540 hectares.

Are rooftop solar systems a good idea for the ASEAN region?

Many countries in the ASEAN region have adopted this rooftop solar system idea and the demand is continually increasing thanks to its potential long-term benefit in reducing the electricity cost (Fig. 6). Moreover, rooftop solar systems become a timely and resource-efficient way for the countries to meet its renewable energy goals.

Why is solar power important in Asia-Pacific?

The Asia-Pacific region is at the forefront of the global renewable energy revolution, with solar power leading the way. The top solar energy projects in this region not only demonstrate the immense potential of solar power but also highlight the commitment of various countries to sustainable energy solutions.
