

EQACC SOLAR

Solar container battery wholesaler

Test certification
CE  FC 

Overview

Where to buy solar products & batteries?

However, if you are looking for the best and high-quality solar products and batteries, then you can buy them from the two sources of points: manufacturer and distributor. Furthermore, purchasing products or goods from manufacturers is called direct purchasing while buying products or goods from distributors is called indirect purchasing.

What is a solar container?

Our Solar Containers are designed in a way to maximize ease of operation. It's not only meant to transport PVs but also to unfold them on site. It is based on a 20' sea container. The efficient hydraulic system helps quickly prepare the Solar to work. Because of their construction, our containers offer unmatched flexibility and mobility.

Why should you choose a solar storage container?

Customize your container according to various configurations, power outputs, and storage capacity according to your needs. Lower your environmental impact and achieve sustainability objectives by using clean, renewable solar energy. Lower energy/maintenance costs ensure operational savings.

Why should you choose a modular solar power container?

Go big with our modular design for easy additional solar power capacity. Customize your container according to various configurations, power outputs, and storage capacity according to your needs. Lower your environmental impact and achieve sustainability objectives by using clean, renewable solar energy.
