

**EQACC SOLAR**

# **Solar container camp**

## Overview

---

What is a solar container?

Our Solar Containers are designed in a way to maximize ease of operation. It's not only meant to transport PVs but also to unfold them on site. It is based on a 20' sea container. The efficient hydraulic system helps quickly prepare the Solar to work. Because of their construction, our containers offer unmatched flexibility and mobility.

Why do you need a solar container?

Deploy power in hours Perfect for remote locations, construction sites, events, and emergency response situations. Our solar containers ensure fast deployment, scalability, customization, cost savings, reliability, and sustainability for efficient energy anywhere.

Why should you choose a modular solar power container?

Go big with our modular design for easy additional solar power capacity. Customize your container according to various configurations, power outputs, and storage capacity according to your needs. Lower your environmental impact and achieve sustainability objectives by using clean, renewable solar energy.

What is sunnyda shipping container camp?

Sunnyda shipping container camp has a door, window, electric system, pipeline, and more. This equipment can be installed based on each country code. With a well-skilled supporting team, fast production and installation guaranteed. We can manage quick delivery for orders of less than 50 units. All equipment is fixed during shipping.
