

**EQACC SOLAR**

# **Solar container communication station flow battery testing equipment**

## Overview

---

What is neware battery test equipment?

Trusted testing solutions for global clients. NEWARE offers powerful battery test equipment to provide turnkey solutions for 3C electronic products, power battery, EV battery and energy storage batteries testing. And our battery test equipment offering a range of functions such as Cycle Life Testing, HPPC Testing, and Simulation Testing.

What is battery testing equipment?

is an innovative, modular battery testing equipment able to combine, on a single test platform, all the tests required to detect any possible defect on battery cells and modules: from defective cell wiring, to geometrical or surface irregularities, to out-of-specs performances.

What types of battery testing systems are available?

Fuel cell and flow battery test systems also available. Turn-key testing platforms including: regenerative battery cyclers, dynamic automation, high common mode cell voltage monitoring, and Emerald™ control software with advanced scripting language. Greenlight also offers automated battery assembly equipment and lithium cell conditioning cabinets.

What kind of battery testing systems does Greenlight offer?

Greenlight offers fully integrated battery testing systems for durability and R&D testing of cells, packs and modules. Fuel cell and flow battery test systems also available.

## Solar container communication station flow battery testing equipment

---

### Flow Battery Test System

The flow battery test platform is fully functional and contains a variety of monitoring sensors to meet various material or process testing ...
