

EQACC SOLAR

Solar container lithium battery pack 5 to 24v

Sample Order
UL/KC/CB/UN38.3/UL

Overview

What batteries do I need for my solar system?

We have 24V and 48V lithium solar batteries to fit you with the right system for your solar application! BigBattery provides lithium-ion battery packs that are perfect for powering any off-grid solar application. Browse our products today to find what you need.

What is a 24v battery?

Compared to lead-acid alternatives, this 24V battery is the perfect combination of size and capacity to fit many applications including, RV, marine, solar energy systems and more .it's a lightweight alternative to lead-acid and one of our most popular lithium batteries. LiFePO4 batteries can be discharged up to 100% without risk of damage.

Which battery bank is best for a home solar panel system?

Home solar panel systems need a way to store all the energy they produce, which requires effective, efficient and powerful solar battery banks. BigBattery off-grid lithium battery banks are made from LiFePO4 cells, which are the best energy source because they store more energy than any other lithium or lead-acid battery.

Does bigbattery have a solar battery?

With built-in BMS and numerous safety features, you can rest easy and let our solar battery do the work for you. We have 24V and 48V lithium solar batteries to fit you with the right system for your solar application! BigBattery provides lithium-ion battery packs that are perfect for powering any off-grid solar application.
