## Overview

---

What is container type unitized compact substation?

Container type unitized compact substation Container type unitized CSS compact substation is a complete type tested per latest IEC standard 62271-202 which is comprising a outdoor enclosure containing medium voltage (MV) switchgear, power or distribution transformers, low voltage (LV) switchboards.

What is a containerized mobile substation?

Containerized mobile substations are sheltered and address applications in challenging environmental conditions including areas of high pollution, and humidity. Customers requiring shorter overall delivery times and minimal on-site work have been the main drivers for Hitachi Energy's development of pre-fabricated indoor substations.

What is a small distribution substation?

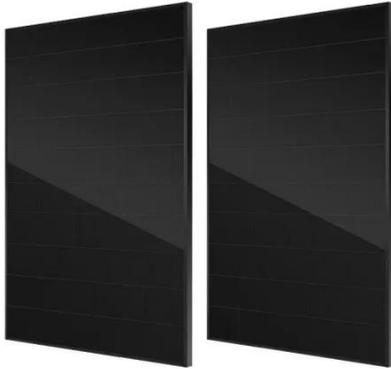

Smaller distribution substations are subdivided into container-sized modules, which can be manufactured, assembled and tested at the factory, allowing easy transport and fast installation and commissioning at site.

What is a skid-mounted substation?

Skid-mounted Substations offer fast and easy deployment, minimizing civil works as well as installation and commissioning effort on site. Containerized mobile substations are sheltered and address applications in challenging environmental conditions including areas of high pollution, and humidity.
