# **Solar energy storage manufacturer inspection**

## Overview

---

What does a solar industry association do?

The association acts as an informant, consultant and mediator in the areas of activity between industry, politics and consumers. On-site PV factory audits, quality inspections, and laboratory tests. Implement Zero Risk Solar and secure your solar quality supply chain. Specialized in solar energy and energy storage.

How does STS support solar & storage development in Asia?

STS supports solar and storage developers' procurement efforts in Asia through supplier assessment & qualification, inspection and quality control, and technical advisory services.

Why do you need a solar safety test?

Through testing, inspection and certification, we help you increase confidence in the reliability of your renewable energy technology. Safety testing for the evolving solar industry is as necessary today as it was 125 years ago when electric lighting became mainstream.

Do solar panels need safety testing?

Safety testing for the evolving solar industry is as necessary today as it was 125 years ago when electric lighting became mainstream. Depending on your place in the value chain, there are several types of testing for both photovoltaic (PV) panels and peripheral equipment.
