

EQACC SOLAR

Solar energy storage stranger visit

Overview

What is the PV exhibition area & energy storage area?

The PV exhibition area includes silicon materials and wafers, cells and modules, inverters, mounting systems, and PV application products, while the energy storage area covers battery materials, cells and modules, storage system integration, BMS/PCS, charging stations, and smart energy management systems.

What is Eesa energy storage exhibition?

EESA Energy Storage Exhibition is organized by Energy Storage Leaders Alliance. The 5th EESA will be held at National Exhibition and Convention Center (Shanghai) from November 24-26, 2026.

How will China's energy storage industry grow in 2025?

Driven by both market and policy factors, the growth of energy storage is expected to be explosive, creating a strong demand for the industry's supply chain. Once again, the China Electricity Council will collaborate to host Shanghai International Energy Storage Technology Application Expo (ES Shanghai 2025).

What can I do with a degree in solar energy?

Solar lighting, home power systems, portable chargers, solar pumps, off-grid and rural electrification systems. Integrated PV systems, solar heating, control software, rural and commercial solar power engineering. Installation tools, vehicles, scaffolding, safety gear, inspection and repair tools.
