# **Solar glass in Bergen Norway**

## Overview

---

What is the glass industry like in Norway?

The glass industry in Norway is characterized by several key considerations that are essential for anyone researching companies within this sector. Norway's commitment to sustainability has led to stringent environmental regulations, which companies must adhere to in order to minimize their carbon footprint and manage waste effectively.

Who is solar technologies Scandinavia?

Solar Technologies Scandinavia is one of Norway's leading suppliers in solar panels and battery storage. The company was founded by key personnel with extensive experience from the construction industry and as technical suppliers. We offer training at all levels of competence in assembly, engineering and all applicable regulations.

Who is Bergen plastics?

Bergen Plastics is a leading manufacturer of thin-walled packaging, emphasizing sustainability and innovation in their production methods. Their commitment to quality and continual improvement has established them as a preferred supplier for top brands.

Which float glass is best for solar applications?

Arsenic- and antimony-free extra clear float glass for solar applications. SunMax Premium is exclusively produced in a float glass process. The industrial float glass process adheres to very strict production tolerances and guarantees the lowest possible defect density. Read more about some of our recent selected finished success stories.
