Solar glass output value in Lyon France

Overview

How big is the Solar Photovoltaic Glass market?

Image © Mordor Intelligence. Reuse requires attribution under CC BY 4.0. The solar photovoltaic glass market size reached 32.10 million tons in 2025 and is forecast to reach 74.75 million tons by 2030, advancing at an 18.42% CAGR between 2025 and 2030.

Does France have a solar energy sector?

The exponential growth of the solar photovoltaic energy sector in France has never stopped since its inception in the early 2000s. In 2023, the PV energy capacity in France amounted to approximately 20.5 gigawatts, making France the fifth European country for cumulative PV capacity that year.

Will Solar Photovoltaic Glass market grow in 2024?

These shifts together position the solar photovoltaic glass market for resilient growth throughout the decade. By glass type, anti-reflective coatings led with a 57% solar photovoltaic glass market share in 2024, while TCO glass is projected to expand at 22.46% CAGR through 2030.

How much solar power does France have in 2023?

In 2023, the PV energy capacity in France amounted to approximately 20.5 gigawatts, making France the fifth European country for cumulative PV capacity that year. Despite this high ranking, solar PV power generation was still behind hydropower and wind renewable energy production.

Solar glass output value in Lyon France

Solar PV Analysis of Lyon, France

Seasonal solar PV output for Latitude: 45.748, Longitude: 4.85 (Lyon, France), based on our analysis of 8760 hourly intervals of solar and meteorological data (one whole year) retrieved ...
