Solar glass production in San Jose

3.2v 280ah

Overview

What is the demand for solar glass?

Andries Wantenaar, from market intelligence company Rethink Technology Research, said that "demand for solar glass is looking robust." "We're excited about the potential for domestic solar manufacturing growth to provide jobs and R&D development in the US," Solarcycle Chief Operating Officer (COO) Rob Vinje told pv magazine.

Why are solar glass suppliers investing in new production capacity?

As PV module capacity increases, glass suppliers are investing in new solar glass production capacity. New facilities are popping up in North America, with unique features to ensure competitiveness, such as using recycled material.

Is glass-glass a trend in solar modules?

Researchers at the US Department of Energy's (DOE) National Renewable Energy Laboratory (NREL) are looking into the trend toward glass-glass regarding module durability.

Why is Canadian premium sand launching a solar panel glass project?

Besides influencing First Solar and its growing glass supply chain, policies such as the US Inflation Reduction Act (IRA) are also spurring crystalline silicon manufacturing investment. This has triggered Canadian Premium Sand (CPS), a new entrant from Canada, to announce a solar panel glass project.
