Solar glass solar roof

Overview

What is a solar roof?

Solar Roof is comprised of both glass solar tiles and steel roofing tiles. Glass solar tiles produce energy, while architectural-grade steel tiles add longevity and corrosion resistance to your roof. Both are durable, strong and engineered for all-weather protection.

What are solar glass panels?

Solar glass panels, often referred to as solar windows or transparent solar panels, represent a groundbreaking advancement in renewable energy technology. Unlike traditional solar panels that are bulky and mounted on rooftops, solar glass panels are integrated directly into windows or building facades.

Are solar glass panels a good choice for building design?

Solar glass panels offer a seamless and aesthetically pleasing way to integrate solar energy into building design. They can replace traditional windows or be incorporated into curtain walls, skylights, and facades, making them an attractive choice for architects and homeowners looking to enhance the visual appeal of their structures.

Are solar roof tiles a good choice?

Glass solar tiles produce energy, while architectural-grade steel tiles add longevity and corrosion resistance to your roof. Both are durable, strong and engineered for all-weather protection. With a 25-year warranty, Solar Roof will continue to produce clean energy and protect your home for decades to come.
