

EQACC SOLAR

Solar inverter manufacturing and assembly plant

Overview

Where are SMA Solar power inverters made?

SMA solar power inverters are designed and manufactured in Germany. SMA inverters are consistently at the leading edge of solar inverter technology with over 1,000 people employed full time in research and development alone.

Who makes Fimer solar inverters?

Headquartered in Vimercate, Italy, Fimer was founded in 1942 and started tinkering with inverter technology in 1983. Website FIMER began producing inverters originally for large-scale renewable energy projects. It wasn't until 2020 the firm entered the home and small commercial market with its acquisition of ABB's solar inverter business.

How to improve solar inverter production efficiency?

In order to achieve more efficient production, the solar inverter factory is equipped with automated SMT surface mount, laser cutting, and intelligent assembly robots, which improve solar inverter production efficiency and accuracy from the source.

Why should you choose our solar inverter factory?

In addition, our solar inverter factory has passed ISO9001 quality management system certification and follows international safety standards to provide high-quality inverter products for the global market.

Solar inverter manufacturing and assembly plant

China Solar Inverter Factory Specializing In Photovoltaic Inverters

Welcome to visit our solar inverter factory in China and learn about our team's photovoltaic inverter manufacturing process.
