Solar inverters in Burkina Faso

Overview

How many batteryless solar inverters should xindun recommend?

Today XINDUN recommend two battery less off grid solar inverters, batteryless inverter. Solar inverter is a device that converts the direct current (DC) output of photovoltaic (PV) solar panels into practical frequency alternating current (AC). It is a core component of an off-grid system.

Are xindun solar inverters OEM/ODM acceptable?

OEM/ODM is acceptable. Xindun has passed ISO9001 certification, solar inverters and solar controllers have passed CE certification. 6 experienced QC charge of every step of production 24 hours simulation run before delivery. 30000 hours of trouble-free operation dc to ac inverters. 3 years warranty for inverters, solar controllers, ups.

What is dual output solar hybrid inverter?

Dual output inverter is inverter that provides two independent AC outputs, which provides greater flexibility in allocating energy in solar power system. However, the total power of the two AC outputs of dual output inverter will not exceed the rated power of the inverter. What factors should be considered when buying a 2 kva solar hybrid inverter?
