

**EQACC SOLAR**

# **Solar module export plan**

## Overview

---

Can a business export a solar panel system?

Businesses, farms, and non-profits with larger solar panel systems (6kW+) have different rules for exporting electricity. On the plus side, they get a guaranteed rate of export payment for 15 years.

What are solar PV module shipments?

Solar PV module shipments include imports, exports, and modules produced and sold domestically, but they exclude modules shipped for resale. These shipments have steadily increased since 2006, driven by significant price declines and policy incentives that encourage solar PV installation.

Why is solar panel export import data important?

The Solar panel export import data sector contributes significantly to the overall GDP percentage of India. We comprehend the fact that the majority of import firms are active in sourcing a wide range of goods, including raw materials, machinery, consumer goods, etc.

How do I create an effective export plan?

Consider the management issues for exporting, approaches to exporting, distribution channels and other important considerations that will impact your business. Understand the key components of an effective, actionable export plan. Just as no two companies are alike, there is no one-size-fits-all export plan.
