# **Solar module exports rise**

## Overview

---

How many solar modules does China Export in 2022?

This is equivalent to about 84 GW of modules, more than half of China's total module exports in 2022. According to Tan Youru, an analyst at BloombergNEF, China exported 212 GW of solar cells and modules in the first 10 months of 2023, some 19 percent more than exports in the whole of 2022.

Did China Export more solar cells in the first 10 months?

According to Tan Youru, an analyst at BloombergNEF, China exported 212 GW of solar cells and modules in the first 10 months of 2023, some 19 percent more than exports in the whole of 2022. While the value of solar product exports from China was flat in the third quarter, volumes rose month-on-month, thanks to lower module prices, he said.

Are India's solar module exports rising?

Data from the Commerce Ministry show a 30.7% rise in India's solar module exports between April and October 2025, with values increasing by \$219.2 million—from \$712.8 million to \$932 million.

Which countries import the most solar modules in 2024?

From January to December 2024, China exported 10.57 GW of modules to Spain, down 10% YoY from 11.75 GW, accounting for 11% of the Europe's total, while the Netherlands led with a 40% share. The Asia-Pacific imported 4.56 GW of modules from China in December 2024, down 10% MoM from 5.08 GW and down 30% YoY from 6.56 GW.

## Solar module exports rise

### China sets export record for low-cost solar modules

China sets solar module export record in 2024 thanks to price cuts, despite trade tensions.

### China's solar PV module exports hit 236 GW in 2024, with ...

China's solar PV module exports hit 236 GW in 2024, with growth in all regions except Europe China exported 16.63 GW of modules in December 2024, up 9% MoM from ...

### Solar cell, wafer exports from China rise as ...

Solar cell and solar wafer exports from China increased significantly during the first half of the year, according to analysis by ...

### China's 9M 2025 Solar PV Exports Rise As Prices Rebound

China Photovoltaic Industry Association (CPIA) notes that China's solar market in 9M 2025 moved unevenly at home, with a policy-driven, 'pulse-like' jump in installations ...

### **China's Photovoltaic & Storage Exports ...**

In 2023, China achieved record photovoltaic export volume growth across all subcomponents, driving manufacturing expansion in ...

### **China's PV module shipments reach new high, ...**

Exports of both PV cells and module from China in 2024 reached new highs, according to recently released customs data.

### **Solar cell, wafer exports from China rise as panel exports fall**

Solar cell and solar wafer exports from China increased significantly during the first half of the year, according to analysis by London-based think tank

Ember Energy. Figures from ...

## China's Photovoltaic & Storage Exports Achieve Record ...

In 2023, China achieved record photovoltaic export volume growth across all subcomponents, driving manufacturing expansion in emerging markets. Following Wood ...

## China sets export record for low-cost solar ...

China sets solar module export record in 2024 thanks to price cuts, despite trade tensions.

## China solar cell exports grow 73% in 2025

India's demand for solar cells sees exports of the product from China increase by over 70% in the first half of 2025, doubling to 40% of all solar

products as solar panel exports ...

### **China's PV module shipments reach new high, surpassing ...**

Exports of both PV cells and module from China in 2024 reached new highs, according to recently released customs data.

### **India's Solar Module Exports Jump 30.7% in H1 FY26, US ...**

India's solar module exports rose 30.7% in April-October 2025, with the US accounting for almost the entire increase in shipment value.

### **Photovoltaic product exports hit record high in first 10 months**

The value of photovoltaic products exported by China hit a record in the first 10 months of 2023, with industry experts saying the momentum will

persist through the year, ...

### India's solar PC modules' exports rise 30.7% in 1st half of

India's solar module exports rose 30.7% in April-October 2025, driven almost entirely by US demand, with emerging traction in new secondary markets across Asia, Africa, and ...
