

EQACC SOLAR

Solar plus glass

Overview

How much does solarplus cost?

SolarPlus is a complete solar design software platform used by over 1,700 solar sales companies who have quoted over 450,000 systems, worth over \$4 billion. Plans prices range from \$190 to \$650/month.

Why should you choose Sunguard solar plus glass?

The high durable coating of SunGuard Solar Plus glass makes it suitable for lamination with the coating against the PVB interlayer, without requiring edge deletion. SunGuard Solar Plus glass can also deliver optical clearness while helping to reduce energy consumption.

What is solarplus?

SolarPlus is Australia's first web-based design and sales tool for the solar industry. Not only a design and costing calculator, it's also a sales tool that allows customers to see exactly what they are getting including highly accurate performance estimates, and simple comparison of systems.

What is Sunguard® solar plus?

SunGuard® Solar Plus has a durable coating that offers high solar protection and natural light transmission, combined with a highly resistant coating.
