

**EQACC SOLAR**

# **Solar power station for home in Belgium**

## Overview

---

How does Belgium support solar panels?

Belgium encourages the use of solar energy by offering various forms of financial support. This support makes the installation of solar panels more affordable for many people. Each Belgian region (Flanders, Wallonia and Brussels) offers money to help pay for the installation of solar panels. The amount varies depending on where you live.

Can you use solar energy on a balcony in Belgium?

According to the officials, Belgium is making it easier for people to use solar energy. New plug-in solar panels, also called balcony solar panels, are now available. These small panels can be easily put up on balconies, windows, or small outdoor spaces. They mentioned that people who rent or don't have a roof or garden can now use solar energy.

Is Belgium making solar energy more efficient?

Energy Minister Zuhal Demir supports this with an 800-watt limit per household to ensure safety and efficiency. According to the officials, Belgium is making it easier for people to use solar energy. New plug-in solar panels, also called balcony solar panels, are now available.

When will solar panels be available for balconies in Belgium?

Belgium launches plug-in solar panels for balconies on April 17, with an 800-watt limit per household for safety, supported by Energy Minister Zuhal Demir.
