Solar powered battery charger in Uk

Overview

Yes, solar car battery chargers do work, but their effectiveness depends on a few factors, including the quality of the charger, the size and condition of the battery, and the amount of sunlight available.

How does a solar car charger work?

This eco-friendly charger generates extra power to help you avoid a flat battery. Made of a monocrystalline solar panel, this solar car charger can produce up to 20W of additional power, perfect for vehicles that you don't always have chance to drive, like caravans, motorcycles, or golf trolleys.

Should you use solar car battery chargers?

The sun is a near-unlimited source of free electricity, which makes the idea of using solar car battery chargers so tempting. If you need to charge your car's battery but don't want to plug in a traditional car battery charger, one of these clever solar panels on your dashboard can supplement battery life, preventing a flat battery.

What is a solar charger?

Unlike our solar panels, our solar chargers are normally a device which incorporates a solar panel and various connections, you will find here solar chargers ideal for notebook computers, cd players, digital cameras, rechargeable batteries, MP3 Players, PDAs, Digital Camera's, Sony PSP, Apple iPOD etc Ask about our price guarantee!.

Which solar charger should I buy?

The PV Logic is easy to use and store and performed well at a reasonable price. For use outside the car, the Photonic Universe 10W would be our choice, with the Topsolar panel close behind. Solar chargers are incredibly useful but should the worst happen then you will need a jump starter pack.
