

EQACC SOLAR

Sophia energy storage cabin fire fighting equipment manufacturer

Overview

Which energy storage projects are NFPA compliant?

In 2018, the first energy storage project to apply active combustible gas detection to NFPA standards In 2018, the first energy storage project to apply self-developed suppression tube fire extinguishing products to NFPA standards.

Which energy storage projects have won NFPA certifications in 2021?

In 2021, won the Best Fire Safety Solution Award in China's Energy Storage Industry In 2022, the first energy storage project to mass apply explosion-proof plate design to NFPA standards In 2023, Gaogong Energy Storage - New Product Innovation Award In 2024, Changzhou Smart Manufacturing Factory was officially completed and launched (IATF16949).

What is the largest energy storage project in China?

In 2019, the NFPA standard energy storage project (652MW) provided the largest single ESS project at that time In 2021, an EN standard energy storage project (1.3GW) was provided, which was the largest single ESS project at the time In 2021, won the Best Fire Safety Solution Award in China's Energy Storage Industry

Sophia energy storage cabin fire fighting equipment manufacturer

Prefabricated cabin energy storage fire protection

The electrochemical energy storage compartment fire suppression system adopts an electrochemical energy storage compartment fire suppression device, which uses ...
