Overview

What is a Longi 615w solar panel?

LonGi 615W Solar Panel Overview The LonGi 615W Solar Panel (LR7-72HGD-615M) is a high-performance photovoltaic module designed for utility-scale power plants. Featuring advanced HPDC cell technology and bifacial design, this solar panel delivers exceptional efficiency and energy yield.

What is the warranty on a Longi 615w solar panel?

Linear Power Output: 30-year warranty for extra linear power output, ensuring 87.40% of rated output at year 30. The Longi 615W Solar Panel (LR7-72HGD-615M) is a high-performance PV module designed for utility power plants. It features advanced HPDC cell technology, delivering superior module efficiency and power.

What is the power output range of a solar panel?

With a power output range of 585W to 620W, it ensures superior module efficiency, making it ideal for large-scale installations. The panel's 23.0% maximum efficiency, low power degradation rate of less than 1% in the first year, and 0.4% annual degradation between years 2 to 30 contribute to its long-term performance and reliability.

How much power does a solar panel produce?

With a peak power output of 615 W and an efficiency of 22.8%, this panel ensures high energy yield and excellent performance in various environmental conditions. The panel features 144 half-cut cells, which minimize power loss due to shading and enhance overall efficiency.
