

EQACC SOLAR

St George Outdoor Portable Energy Storage Power Bank

GRADE A BATTERY

LiFepo4 battery will not burn when overcharged over discharged, overcurrent or short circuit and can withstand high temperatures without decomposition.

Overview

What is the difference between a power bank and a portable power station?

Size is the main difference between the best power banks and the best portable power stations. Power banks are typically compact with small capacities designed to charge smartphones and other small gadgets. Power stations have far larger capacities and can potentially run small appliances and larger gadgets.

Which power station is best for outdoor tour?

if you are enthusiastic in outdoor tour, emergency power battery station will be useful in every where. A high-end energy storage power supply with built-in LiFePO4 battery and smart BMS is very useful as emergency, outdoor, balcony solar portable power station.

Why should you choose a portable power station?

If natural disaster is unexpected to happen, such as flood, earthquake, seaquake, etc, then local electrical system will be destroyed, portable power station is the best choice at this moment. if you are enthusiastic in outdoor tour, emergency power battery station will be useful in every where.

What can a portable power station charge?

All portable power stations can charge up small gadgets like phones and laptops or be used to power lighting. Most can handle small appliances like mini-fridges or TVs. If you want to use power tools, an AC unit, or in the UK, a kettle, you need to be able to draw thousands of watts.
