

EQACC SOLAR

St Johns solar Energy Storage Power Station

Overview

Does Saint John energy have a solar farm?

Saint John Energy announced it's partnering with a global renewable energy developer and NB Indigenous community on the province's largest solar farm.

Do you have solar panels outside the Saint John energy building?

We even have solar panels outside the Saint John Energy building on Simms Street, though they are used to collect data on the potential for community solar developments - work that continues. We've not yet explored utility-scale solar in this way before.

When will Saint John energy's solar farm project start?

Construction of the project is expected to begin in spring of 2026 and be operational by the following summer. The solar farm initiative is the latest part of Saint John Energy's Zero30 plan to produce net-zero emissions by 2030.

Will Saint John energy adopt solar?

So this first for Saint John Energy will be an important test on the feasibility of adopting solar into our energy mix. Burchill is proving that renewable energy is not only good for the environment but makes great business sense.
