

EQACC SOLAR

Star inverter price

Overview

What is a home star inverter?

Exide Home Star Inverter - The Exide Home Star Inverter features an advanced microcontroller-based Pure Sine Wave system, ensuring smooth and reliable power output. With the ability to handle a wide range of mains input voltages (90V-300V AC) for battery charging, it's perfect for areas with fluctuating grid power.

Is Exide home star a good inverter?

Designed to perform efficiently even at low voltage, it keeps lights, fans, TV, and computers running optimally. The user-friendly LED display adds to its appeal, making the Exide Home Star a popular choice among inverters. Discover the latest Exide Home Star Inverter that offers smooth and reliable output.

How much does an inverter cost?

At the average \$0.18 per watt and with the average installation costing \$2.93 per watt, inverters usually account for about 6% of total installation costs. This means that a typical 5.6-kilowatt installation costs \$16,408 in total and the inverter should account for about \$1,000 of that.

Star inverter price

Power Star DC AC Inverter 500W to 12000W ...

Power Star DC AC Inverter 500W to 12000W Solar Power Inverter with Battery Charger Low Frequency, Find Details and Price ...
