

**EQACC SOLAR**

# **Sucre Mobile Energy Storage Container Mobile Type**

## Overview

---

What is a container energy storage system?

The container energy storage system helps to use and manage energy more effectively, reduce electricity bills, and can be applied in various scenarios such as peak valley arbitrage for power users, frequency regulation and peak shaving for power grids, improving new energy consumption, and improving power supply stability for power grids.

What is a mobile energy storage system?

On the construction site, there is no grid power, and the mobile energy storage is used for power supply. During a power outage, stored electricity can be used to continue operations without interruptions. Maximum safety utilizing the safe type of LFP battery (LiFePO4) combined with an intelligent 3-level battery management system (BMS);.

How can a mobile energy storage system help a construction site?

Integrate solar, storage, and charging stations to provide more green and low-carbon energy. On the construction site, there is no grid power, and the mobile energy storage is used for power supply. During a power outage, stored electricity can be used to continue operations without interruptions.

What energy storage container solutions does SCU offer?

SCU provides 500kwh to 2mwh energy storage container solutions. Power up your business with reliable energy solutions. Say goodbye to high energy costs and hello to smarter solutions with us.

## Sucre Mobile Energy Storage Container Mobile Type

---

### Mobile energy storage technologies for boosting carbon ...

Compared with traditional energy storage technologies, mobile energy storage technologies have the merits of low cost and high energy conversion efficiency, can be flexibly ...
