Overview

Why should you choose a solar energy system in Sudan?

We focus on underserved and conflict-affected regions across Sudan, striving to foster long-term growth and stability. Tailored solar energy systems provide reliable power, reduce electricity costs, and promote environmental sustainability, designed for homeowners seeking stable and independent energy solutions.

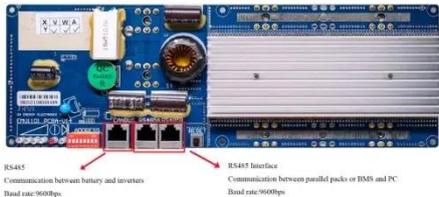

Does Sudan have solar energy?

Solar energy has the greatest potential for use in Sudan compared to other forms of RE. Sudan possesses an average annual radiation range of 436 to 639 W/m² per year, which exceeds the annual global average. The period of solar radiation in the country is between 8.5 and 11 hours per day .

Who is alramah solar?

As the leading Sudan solar company, Alramah Solar has established offices in Port Sudan to provide advanced solar systems tailored to meet the specific needs of Sudan. Alramah Solar Company Ltd initiated a strategic cooperation with a premier solar manufacturer based in China.
