Sukhumi Solar 4 MW

Overview

How much does a 4MW solar power plant cost in India?

Surplus power can subsequently be sold to the Electricity DISCOMs as per net metering mechanism of respective state government. On average, the cost of a 4MW solar power plant in India ranges between Rs 19 to 20 crores. Several factors influence the initial solar investment.

Should you invest in a 4MW solar power plant?

If you are looking to get a 4MW solar power plant for your Manufacturing units, business or industry, you can choose to invest in your plant through either of the two models. In the CAPEX or one-time investment model, the consumer chooses to make an upfront capital expenditure.

Can a 4MW solar power plant run a commercial establishment?

A 4MW solar power plant can run a commercial establishment independently from the Electricity grid. This size of solar farms takes up 19 to 20 acres of space and gives about 16000 kWh of low-cost electricity every day. Surplus power can subsequently be sold to the Electricity DISCOMs as per net metering mechanism of respective state government.

How much does a solar farm cost in India?

This size of solar farms takes up 19 to 20 acres of space and gives about 16000 kWh of low-cost electricity every day. Surplus power can subsequently be sold to the Electricity DISCOMs as per net metering mechanism of respective state government. On average, the cost of a 4MW solar power plant in India ranges between Rs 19 to 20 crores.
