

EQACC SOLAR

The first smart energy storage room in Sydney Australia

Overview

Why should you attend the Energy Storage Summit Australia 2026?

The Networking Drinks and Lunch Breaks will provide ample opportunities to forge valuable business partnerships and collaborations. The Energy Storage Summit Australia returns to Sydney in 2026, continuing to drive conversations around Australia's transition to 100% renewables and its emergence as a global green superpower.

Will Australia's residential storage capacity surpass 15gwh by 2025?

According to Modo Energy, Australia's cumulative residential storage capacity is expected to surpass 15GWh by 2025, driven by state subsidies and policy incentives. Against this backdrop, Swatten, a subsidiary of Sieyuan Electric, will showcase its cutting-edge energy solutions at Smart Energy 2025 in Sydney from April 9-10 at booth 58.

What is IKEA Australia doing with smart commercial solar?

IKEA Australia has partnered with Smart Commercial Solar to install a \$2.9 million, 2,034 kW rooftop solar and battery energy storage system on a western Sydney distribution centre.

What is UNSW doing about energy storage in Australia?

UNSW is striving towards 1,000GWh of beneficial energy storage in Australia by 2050. We believe this level of storage will underpin a healthy society by promoting a resilient and sustainable energy system. Resilience means providing electrical energy more reliably, by accommodating variable generators and unplanned damage to grid infrastructure.
