

EQACC SOLAR

**The world's largest solar
curtain wall**

Overview

The SunRise Building, an apartment complex in Alberta, Canada, has answered that question — and is now the title holder of the Guinness World Record for the largest solar panel mural on Earth. What is a solar curtain wall?

The company's 'solar curtain wall' covered the entire side of a building with plastic solar film encased in glass. This installation was expected to provide 1.5 kW of power. Unfortunately, the company filed for bankruptcy in 2012 but they did help to further the solar power curtain concept. Another option comes from a company called SolarGaps.

What is a photovoltaic curtain wall?

Building Integrated Photovoltaics At Onyx Solar we provide tailor-made photovoltaic glass in terms of size, shape, transparency, and color for any curtain wall design. Photovoltaic curtain walls transform any building into a self-sufficient energy infrastructure and enhance the building's architectural design.

What is the largest ecological green wall in the world?

The largest ecological green wall in the world—Theme Pavilion of Expo, the total area is 5000m², which absorbs 4 tons of carbon dioxide per year, being a new representative of low- carbon building.

What is the scope of Yuanda curtain wall project?

The scope contracted by Yuanda has been widely praised in the curtain wall field. Shanghai Expo Centre—which is a project with the highest requirement in construction and environmental protection, Yuanda made tens of technologic breakthroughs to draw an outline of colourful life in future cities.
