

## EQACC SOLAR

# Tips for loading solar modules into containers

## Overview

---

### How to transport solar modules?

Especially in Germany and the EU, road transport is often the fastest and most flexible way to reach even remote locations. However, transporting solar modules is not an everyday freight – they are sensitive and must be handled properly to avoid damage. Use transport companies with experience in handling solar modules.

### How do you mount solar panels to a container?

For side-mount type panels, attach brackets to the container walls by bolting and mount the panels onto these brackets. All glaringly obvious, those panels should now be skewed for maximum sun exposure. Connect the solar panels to the inverter and the electrical cabinet according to the manufacturer's instructions.

### Can solar panels be mounted on a shipping container?

Mounting solar panels on a shipping container can be a practical solution for mobile or remote power needs. Below are the general steps and considerations for mounting solar panels on a shipping container, specifically for the models LZY-MSC1 and LZY-MSC3:.

### Can you walk on a LONGi Solar PV module?

DO NOT stand or walk on PV modules. Prior to beginning installation, review the Installation Manual for LONGi Solar PV Modules. Do not carry a module alone; always use two people to lift and carry. Do not drill holes in the frame of the module.
