

Tunisia Energy Storage Construction Project

Overview

What are Tunisia's energy projects?

One third of the projects will be for wind farms and two thirds for solar photovoltaics. Tunisia's national grid is connected to those of Algeria and Libya which together helped supply about 12% of Tunisia's power consumption in the first half of 2023.

Why should Tunisia invest in tereg?

“ By fostering renewable energy development, TEREG will strengthen Tunisia's position in clean energy, creating economic opportunities and ensuring long-term energy security,” said Alexandre Arrobbio, World Bank Country Manager for Tunisia. “ This project reflects our strong partnership with Tunisia and supports its sustainable development goals.

What is the south Tunisian gas project?

South Tunisian Gas Project (STGP) or Nawara project involves the installation of a central processing facility (CPF) at the Nawara well site for pretreatment of gas, a 370km pipeline, and a gas treatment plant (GTP) in the Ghannouch industrial district near the coastal city of Gabès.

How will Tunisia's energy reforms impact the economy?

“ The program's reforms—such as reducing technical and commercial losses and increasing the share of renewables—are expected to deliver lasting improvements in the operational and financial performance of the sector, making electricity more affordable and reliable for households and businesses across Tunisia.”
