

Tunisia Energy Storage Power Station Operation and Maintenance Project

Overview

What are Tunisia's energy projects?

One third of the projects will be for wind farms and two thirds for solar photovoltaics. Tunisia's national grid is connected to those of Algeria and Libya which together helped supply about 12% of Tunisia's power consumption in the first half of 2023.

Who manages the energy sector in Tunisia?

As of March 2020, the Tunisian electricity sector is managed by the Ministry of Energy, Mines and the Energy Transition. For the past two years, renewable energy portfolio was managed by the Ministry of Industry, Small and Medium Size Enterprises.

Why should Tunisia invest in tereg?

“ By fostering renewable energy development, TEREG will strengthen Tunisia’s position in clean energy, creating economic opportunities and ensuring long-term energy security,” said Alexandre Arrobbio, World Bank Country Manager for Tunisia. “ This project reflects our strong partnership with Tunisia and supports its sustainable development goals.

How will Tunisia's energy reforms impact the economy?

“ The program’s reforms—such as reducing technical and commercial losses and increasing the share of renewables—are expected to deliver lasting improvements in the operational and financial performance of the sector, making electricity more affordable and reliable for households and businesses across Tunisia.”
