

Tunisia's energy storage policy for new energy projects

High Voltage Solar Battery

Overview

Why is Tunisia investing in a secure electricity network?

To ensure a resilient electricity network, Tunisia is investing in modern, secure infrastructure. The ELMED interconnection project, which will link Tunisia to Italy by 2028, will play a key role in stabilizing energy supply, while supporting the energy transition in Tunisia and Europe.

What are Tunisia's energy projects?

One third of the projects will be for wind farms and two thirds for solar photovoltaics. Tunisia's national grid is connected to those of Algeria and Libya which together helped supply about 12% of Tunisia's power consumption in the first half of 2023.

Why should Tunisia invest in tereg?

“ By fostering renewable energy development, TEREG will strengthen Tunisia's position in clean energy, creating economic opportunities and ensuring long-term energy security,” said Alexandre Arrobbio, World Bank Country Manager for Tunisia. “ This project reflects our strong partnership with Tunisia and supports its sustainable development goals.

How much of Tunisia's energy is renewable?

By 2016, Tunisia aims to augment the share of renewable energy to an ambitious 11 %, which would represent more than an eight-fold increase as of 2009. By 2030, the RE share should rise to 25 %. There are also corresponding capacity-related targets in place: by 2016, total renewable energy capacity shall rise to 1 GW and to 4.7 GW by 2030.

Tunisia's energy storage policy for new energy projects

Tunisia Energy Storage Project Subsidy Policy

Alongside Tunisia's national energy policy are encouraging signs that the country will promote local energy generation. In 2015, Law 2015-12 established a regulatory and institutional

...

Tunisia Energy Policy and Energy Storage: A Roadmap for ...

a sun-drenched North African nation where solar panels could outnumber date palms. That's Tunisia energy policy in action, folks! As the country aims to generate 35% of its electricity ...

Industrial energy storage financing options in Tunisia 2026

The global energy storage market is poised to hit new heights yet again in 2025. Despite policy changes and uncertainty in the world's two largest markets, the US and China, the sector ...

Tunisia's Push for Renewable

Energy: Progress and Challenges

Tunisia's push for renewable energy reflects significant progress through ambitious solar and wind projects, yet challenges such as regulatory hurdles, financing gaps, and grid ...

Home Energy Storage (Stackble system)

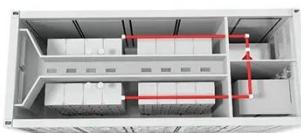

MENALINKS launches Battery Energy Storage Systems (BESS) ...

On 5 and 6 February 2025, the MENALINKS programme officially launched its Battery Energy Storage Systems (BESS) workstream in Tunisia. The kick-off brought together over 25 high ...

Tunisia's Push for Renewable Energy: ...

Tunisia's push for renewable energy reflects significant progress through ambitious solar and wind projects, yet challenges such ...

RENEWABLE ENERGIES:

Solar and wind power projects subject to authorization : Tunisia has granted authorizations for projects with a capacity of 381 MW, including 261 MW of

solar PV and 120 ...

Deploying Battery Energy Storage Solutions in Tunisia

Deploying Battery Energy Storage Solutions in Tunisia Authors RES4Africa Foundation: Paolo Cutrone RINA: Ali Kanzari, Emna Ben Mahmoud, Ahlem Ben Abidallah, ...

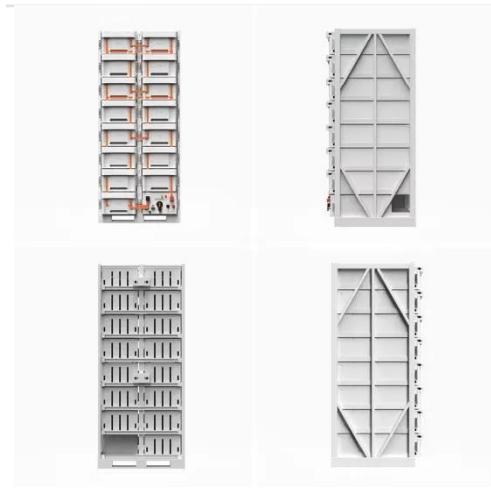

Tunisia energy storage systems market

By 2030, Tunisia plans to develop second-generation clean energies (concentrated solar thermal power (CSP), pumped storage and turbines (STEP)) to boost hydrocarbon exploration and ...

World Bank Approves New Project to Power Tunisia's Energy ...

New \$430 million World Bank-supported program to support Tunisia's efforts to expand renewable energy, improve

electricity reliability, and strengthen sector governance.

Renewable Energy: Tunisia should prepare for energy storage ...

Tunisia - Tunisia, which plans to integrate 35% renewable energy into the national electricity mix by 2030 and to embed the principles of energy efficiency, would benefit from ...
