Two energy storage projects in Greece

Overview

Which energy storage stations are being built in western Macedonia?

PPC Group is beginning the construction of two new energy storage stations (BESS) in Western Macedonia, in Northern Greece. The first one is "Melitis 1" station with a total installed storage capacity of 48 MW/96 MWh, which will be constructed in the vicinity of the photovoltaic plants to be developed by the Company in Western Macedonia.

Will PPC group build a new energy storage station in Bulgaria?

About two months ago, PPC Group announced the commencement of construction of an energy storage station with a nominal capacity of 25 MW and installed capacity of 55 MWh in neighboring Bulgaria.

What are the benefits of energy storage projects?

- The storage projects optimise the management of RES generation, maximise their contribution, utilize the potential of RES electricity generation and contribute to the stability of the energy system. PPC Group is beginning the construction of two new energy storage stations (BESS) in Western Macedonia, in Northern Greece.
