Uninterruptible power supply for Baku shelter

Overview

What is a ruggedized military uninterruptible power supply (UPS) system?

Arimon ruggedized military uninterruptible power supply (UPS) systems are specifically designed and manufactured for compliance with military environmental and electrical standards for rugged applications, harsh environments and to withstand high shock, vibration and extreme temperatures.

Where are Arimon military ruggedized uninterruptible power supply systems made?

Arimon military ruggedized uninterruptible power supply (UPS) systems are manufactured in the USA. The modular designs are scalable from 20Kw to 120Kw and have the capability to be paralleled. The rugged construction is engineered for long-life and reliable performance. Arimon prides itself in serving those that serve us.

What is an uninterruptible power supply?

An uninterruptible power supply is an electrical apparatus designed to furnish emergency power even when other sources of input power fail, and they are indispensable tools within a huge number of unrelated industries.

What is military uninterruptible power supply modular stacking?

Our Military Uninterruptible Power Supply modular Stacking concept allows the design engineer or end user to configure and re-configure the needed power services as needed to meet the ever changing operational demands of deployed environments.
