Uninterruptible power supply service for cabinet

Overview

What is an uninterruptible power supply (UPS)?

Uninterruptible power supplies (UPS) are essential to ensure you have continuous power during a power outage. From a small UPS to save and shut down your PC, to large commercial systems that power large data centers or critical systems in hospitals, we have the solutions you and your customers demand.

What are the different types of uninterruptible power supply maintenance services?

Depending on your needs, we offer four different levels of routine uninterruptible power supply maintenance services. Our basic package includes: UPS protection and preventive maintenance during business hours. Annual sealed battery preventive maintenance during business hours. Optional flooded battery preventive maintenance.

Why should you choose Mitsubishi Electric uninterruptible power supplies?

At 99.9995%, Mitsubishi Electric Uninterruptible Power Supplies achieve the highest equipment reliability among all UPS suppliers, ensuring you – and your customers – are protected against downtime 24/7/365.

Do you need a battery system to backup your ups power supply?

For mission critical applications, having a reliable battery system to backup your UPS power supply is essential to supporting your critical load during a power quality event.
