# United Arab Emirates purchases mobile energy storage power

## Overview

---

Why are Saudi Arabia and the United Arab Emirates using battery storage systems?

Saudi Arabia and the United Arab Emirates are taking advantage of falling prices to load up on Chinese-made battery energy storage systems, so they can boost their renewable energy ambitions. Battery storage systems are seen as crucial to integrating solar and wind energy into electrical grids.

What is a 'gigascale' solar & battery project in Abu Dhabi?

Meanwhile, the UAE has launched a “gigascale” solar and battery project in Abu Dhabi, which is planned to provide baseload energy 24 hours a day. The plant will have a 19GWh battery storage system, and is a partnership between utility Emirates Water and Electricity Company and renewables group Masdar.

Who is building the world's largest solar and battery storage project?

The United Arab Emirates is building the world’s largest solar and battery storage project that will dispatch clean energy 24/7. Emirati Renewable energy company Masdar (Abu Dhabi Future Energy Company) and Emirates Water and Electricity Company (EWEC) are developing the trailblazing solar and battery storage project.

Who is investing in Abu Dhabi's solar & battery project?

Meanwhile, technology for Abu Dhabi’s round-the-clock solar and battery project will be provided by Chinese battery maker CATL, whose listing in Hong Kong in May was the world’s biggest so far this year. Kuwait’s sovereign wealth fund was among the cornerstone investors.
