Vienna Township solar Energy Storage Station

Overview

What is Vienna energy's solar energy expansion programme?

Wien Energie's solar energy expansion programme is based on stakeholder participation and cooperation. Vienna's largest community-funded solar power plant went into operation in Unterlaa in May 2020. Thousands of climate activists from Vienna and the surrounding region bought into the project by purchasing investment packages.

Why should you choose a solar power plant in Vienna?

Our solar power plant in Vienna's Liesing provides the optimum environment in the city for species requiring protection. Our citizen solar power plants allow people to financially participate in PV systems, benefiting from a secure investment and favourable tariffs.

When did Vienna start supplying carbon-free energy?

Vienna's first citizens' power plant opened on 4 May 2012 on the premises of Donaustadt power station, and Wien Energie has been expediting the expansion of the model ever since. Over 30 solar and wind plants are already supplying the city with carbon-free energy.

How many photovoltaic plants does Wien Energie have?

The utility company now operates over 260 photovoltaic plants with a total capacity of nearly 60MW and is expanding its position as Austria's leading solar energy provider. "Wien Energie is driving the city's climate protection efforts.

 **Efficient Higher Revenue**

- Max. Efficiency 97.5%
- Max. PV Input Voltage 600V
- 150% Peak Output Power
- 2 MPPT Trackers, 100% DC Input Oversizing
- Max. PV Input Current 15A, Compatible with High Power Modules

 **Intelligent Simple O&M**

- IP65 Protection Degree: support outdoor installation
- Smart 1 Y Curve Diagnosis Function: locate PV string faults accurately and automatically detect faults
- DC & AC Type II SPD: prevent lightning damage
- Battery Reverse Connection Protection

 **Flexible Abundant Configuration**

- Plug & Play, EPS Switching Under 10ms
- Compatible with Lead-acid and Lithium Batteries
- Max. 6 Units Inverters Parallel
- AFCI Function (Optional): when an arc fault is detected the inverter immediately stops operation
