# **Vilnius EK SOLAR power storage project connected to the grid**

## Overview

---

What is the largest 'private' Bess project in Lithuania?

IPP E energija Group has started building what it claims is the largest 'private' BESS project in Lithuania, a few weeks after the Baltic region decoupled from Russia's electricity grid. The 120MWh battery energy storage system (BESS) project near Vilnius, the capital of Lithuania, will come online by the end of 2025.

How much does the EU spend on energy storage in Lithuania?

In late 2024, the EU approved a €180 million (US\$188 million) support package for over 1.2GWh energy storage in Lithuania, covering a maximum of 30% of the projects' capital expenditure costs via a competition auction set to conclude before the end of 2025.

What is Lithuania's largest battery storage facility?

This project will become Lithuania's largest battery storage facility that is privately owned, boosting the country's total storage capacity by approximately 50%. The project is located near Vilnius and will be operational by the end of 2025.

What is Lithuania's first commercial battery storage facility?

Lithuania's first commercial battery storage facility will feature a 120 MWh capacity smart battery storage system. This project will become Lithuania's largest battery storage facility that is privately owned, boosting the country's total storage capacity by approximately 50%.
