# **Vilnius Power Storage Vehicle Fee Standard**

## Overview

---

What is Lithuania's first commercial battery storage facility?

Located near Vilnius, this project will be the country's first commercial battery storage facility and is expected to increase Lithuania's total storage capacity by approximately 50%. The system is scheduled to begin operations by the end of 2025.

How many battery parks are there in Vilnius?

The system consists of four 50 MW battery parks, installed at electricity transformer substations in Vilnius, in Šiauliai, Alytus and Utena. They can provide continuous power for about one hour or until other sources of power generation come online, Kruonis HAE.

What is Lithuania's energy strategy?

The Strategy has 4 main objectives – to ensure a secure and reliable supply of energy to all consumers, to achieve 100% climate-neutral energy for Lithuania and the region, to transition to an electricity economy and develop a high value-added energy industry, as well as to ensure the accessibility of energy resources for consumers.

How DH &C systems are being implemented in Lithuania?

Currently part of DH systems in Lithuania is installing and/or planning to install heat storage facilities, which will enable an increase the efficiency and enhance the living age of biomass-burning DH&C systems. These are mainly insulated hot water tanks and/or underground water tank storage.
