

EQACC SOLAR

Warranty for 100-foot Swedish photovoltaic energy storage container products

Overview

What is a solarcontainer?

The Solarcontainer is a photovoltaic power plant that was specially developed as a mobile power generator with collapsible PV modules as a mobile solar system, a grid-independent solution represents. Solar panels lay flat on the ground. This position ensures maximum energy harvest Panels lays flat on the ground.

What is energy storage container?

SCU uses standard battery modules, PCS modules, BMS, EMS, and other systems to form standard containers to build large-scale grid-side energy storage projects.

What is the warranty period for Sungrow inverters?

In any case the standard warranty period for the inverters is no more than six (6) years since production date (which can be seen, inter alia, from the serial number of the Product concerned). For all other products, the starting point is not later than one year after initial sales from SUNGROW to Distributor.

How long does Sungrow warranty last?

For the Standard warranty package, Sungrow warrants that the energy of the Product will be at least 65% percent of the initial usable energy until 730 cycles, the number of warranted cycled, in accordance with the following provisions has been reached, but no later than two (2) years. 3.
