Warsaw inverter battery

Overview

When will a battery energy storage system be available in Zarnowiec?

LG Energy Solution and state-owned power producer PGE announced the supply agreement for the battery energy storage system (BESS) in Zarnowiec in January this year, which is set to enter commercial operation in 2027.

How much money does Poland spend on battery energy storage?

Poland has finalized a comprehensive subsidy program aimed at accelerating the deployment of battery energy storage systems (BESS), with a total budget of PLN 4 billion (approximately €1 billion).

Will LG make 900 MWh Bess batteries in Poland?

LG Energy Solution will manufacture the batteries for a 900MWh BESS project in Poland using its local gigafactory, it confirmed.

Why is Poland launching a grid-scale battery system?

The introduction of this storage support program marks a key milestone in Poland's energy transformation. By enabling the deployment of grid-scale battery systems, the country is strengthening its ability to integrate larger volumes of clean energy, reduce dependence on fossil fuels, and enhance power system stability.
