

**EQACC SOLAR**

# **Warsaw solar container battery Factory**

## Overview

---

How does respect energy optimize Poland's largest battery energy storage system?

Respect Energy has been contracted to optimize Poland's largest battery energy storage system (BESS), a 14-MWh/7-MW facility operated by Elemental Group in Zawiercie. The BESS, consisting of seven containers with lithium-ion batteries, achieved 99.9% operational stability and a 48% efficiency increase through advanced algorithms and automation.

When will a battery energy storage system be available in Zarnowiec?

LG Energy Solution and state-owned power producer PGE announced the supply agreement for the battery energy storage system (BESS) in Zarnowiec in January this year, which is set to enter commercial operation in 2027.

Who makes a battery in Poland?

In fact, major industry players such as LG Energy Solutions and Umicore, have established a strong presence there. According to a McKinsey report, the Polish nation ranks second globally in battery production capacity, following China, with 73 GWh in 2022.

Why is Poland a good place to build a battery?

According to Krzysztof Burda, president of the Polish Chamber of Electromobility Development (PIRE), Poland's strategic location makes it "an ideal hub for battery, components, and subassembly factories". In fact, major industry players such as LG Energy Solutions and Umicore, have established a strong presence there.
