

EQACC SOLAR

Waterproof Solar Containers for Marine Use

Overview

What is a solarcontainer?

The Solarcontainer is a photovoltaic power plant that was specially developed as a mobile power generator with collapsible PV modules as a mobile solar system, a grid-independent solution represents. Solar panels lay flat on the ground. This position ensures maximum energy harvest Panels lays flat on the ground.

What is a sunware solar panel?

Fully flat front, cable outlet on the backside. In close cooperation with manufacturers, SunWare develops and produces tailor-made marine solar panels in small series for buoys, sea watermarks and offshore applications. SunWare solar panels are designed for extraordinary wind and temperature loads.

What is a marine solar panel?

Marine solar panels with ultra slim design and with maximum performance. Optimized for longlasting lifetime in seawater & off shore application. Semi-flexible, customizable to boat decks, & walkable with boat shoes. Best aesthetically solar integration on boats, yachts & catamarans. Fully flat front, cable outlet on the backside.

Where are sunware solar panels made?

SunWare solar panels are designed and manufactured for extreme application conditions. From use on sea sea buoys and boats to avalanche bridges, SunWare marine solar panels and solar systems are used worldwide wherever reliability, durability, robustness and freedom from maintenance are required. Made in Germany by SunWare.

Waterproof Solar Containers for Marine Use

Mobile Solar Container Systems , Foldable PV Panels , LZY Container

What is LZY's mobile solar container?
This is the product of combining collapsible solar panels with a reinforced shipping container to provide a mobile solar power system for off-grid or ...
