Wellington Coal Energy Storage Project

Overview

Where is the Wellington Battery energy storage system located?

The Wellington BESS will be located within the CentralWest Orana REZ. Image: Ampyr Australia. Renewable energy developer Ampyr Australia has secured Shell Energy Australia's remaining stake in the 1GWh Wellington battery energy storage system (BESS) in New South Wales.

What is the Wellington Battery energy storage system (BESS)?

The Wellington Battery Energy Storage System (BESS) is planned to be developed in the central west New South Wales (NSW), Australia. The project will comprise a grid-scale BESS with a total discharge capacity of around 400MW. AMPYR Australia, a renewable energy assets developer in the country, owns 100% of the BESS project.

Will Wellington Bess be the largest battery storage project in NSW?

Once operational, it will have a capacity of 1,000-megawatt hours (MWh) of green power. This will make Wellington BESS one of the largest battery storage projects in NSW. Wellington is being constructed at 6773 and 6909 Goolma Road, Wuuluman NSW 2820.

How many GW of storage capacity will New South Wales deliver?

More than 1 GW of firmed storage capacity is set to be delivered by the six winning projects from the New South Wales (NSW) tender combining state and federal schemes. Akaysha Energy's 415 MW / 1660 MWh battery in Wellington and AGL's 500 MW / 1000 MWh Liddell battery are the round's two biggest projects.
