Hybrid Inverter

Overview

How many 3G/4G base stations are there in the Solomon Islands?

The project plans to construct 161 3G/4G wireless communication base stations on 35 major islands in the Solomon Islands' nine provinces. The construction, to last for three years, started on Aug. 28, 2023, with the first telecommunication tower launched on March 22 in Sali village. (Xinhua/Zhang Jianhua) By Zhang Jianhua, Zhang Na.

Who owns Solomon Islands towers?

In terms of ownership, the government had already established Solomon Islands Tower Company Ltd, trading as “Solomon Tower Limited” (STL), as the State-Owned Enterprise to own and manage the tower sites. The STL Office is located in the Eastern Wing (upstairs) of the Solomon Post building.

Why is China launching a National Broadband Network in the Solomon Islands?

Chinese Ambassador to the Solomon Islands Cai Weiming said the national broadband network project in the Solomon Islands will facilitate the flow of information and friendship and provide a more balanced distribution of development opportunities, demonstrating the appealing prospects of Belt and Road cooperation.

How many 3G/4G mobile towers will be built in Honiara?

The government aims to construct about 161 3G/4G broadband mobile towers under the SINBIP around the country using both Microwave and VSAT backhaul connections to the Solomon Telekom Ltd core in Honiara. Most of the mobile towers will use green solar energy and will be accommodated in a specific fenced area based on the tower design.
