What is a battery cabinet?

Battery cabinets are a convenient storage solution that encourages staff to maintain the correct handling and storage procedures. By charging and storing batteries in the one location, you are reducing the likelihood of batteries being lost, stolen, damaged or left in unsafe conditions (such as outdoors).

What are battery charging cabinets?

Battery charging cabinets are a type of safety cabinet that's designed especially for lithium-ion batteries. Over the recent years, as the prevalence of lithium-ion batteries has grown in workplaces, battery cabinets have become more popular due to the many risk control measures that they provide.

Are battery cabinets safe?

As lithium-ion batteries have been known to ignite when being recharged, it's important to have a charging station that is free from faults and electrical malfunctions. Battery cabinets are constructed to have intrinsically safe electrical work that reduces the risks associated with recharging.
