Which 5G base stations are there in Ukraine

Overview

Where will 5G NR technology be tested in Ukraine?

Nokia Solutions and Networks Ukraine will conduct testing of 5G NR technology in Vynnyky, Lviv region. The radio equipment will be integrated into Huawei's PS Core commercial infrastructure. Each company is obliged to submit an official report on the test results within one month after completion.

Where was the first city to test 5G network in Ukraine?

Lviv was the first city to test the 5G network in Ukraine. If you notice a spelling error, select it with the mouse and press Ctrl+Enter.

Is Russia stalling Ukraine's 5G plans?

While many operators across Europe have focused on launching 5G networks, the same can't be said for Ukraine. Speaking to DCD, Stanislav Prybytko, director general of the directorate for mobile broadband for Ukraine's Ministry of Digital Transformation, explains that the war with Russia has stalled the country's 5G goals.

When will 5G be implemented in Ukraine?

On Novem, Minister of Digital Transformation Mykhailo Fedorov announced that the Cabinet of Ministers had adopted amendments to the resolution on radio frequency use, enabling the implementation of 5G in Ukraine. Lviv was the first city to test the 5G network in Ukraine.
