

## EQACC SOLAR

# Which company is the best for Athens double-glass solar curtain wall

## Overview

---

What is a photovoltaic curtain wall?

Building Integrated Photovoltaics At Onyx Solar we provide tailor-made photovoltaic glass in terms of size, shape, transparency, and color for any curtain wall design. Photovoltaic curtain walls transform any building into a self-sufficient energy infrastructure and enhance the building's architectural design.

Does Photovoltaic Glass fit in a curtain wall?

No, the BIPV photovoltaic glass structurally does not differ from other types of conventional glazing. Therefore, it is integrated into the building envelope (curtain wall, façade, or skylight) like any construction material. What solar control and comfort advantages does photovoltaic glass offer in a curtain wall?

.

What are the different types of glass curtain wall?

There are 2 main categories of glass curtain wall if we look at their fabrication and installation methods: stick systems and unitized (or modular) systems. A frame is assembled on-site using mullions, transoms, and glass or opaque panels (potentially glass spandrels), which are designed to fit together as a unitized system.

What is curtain wall glass used for?

The curtain wall glass is used in large uninterrupted areas, creating attractive looking facades where higher light transmission and lower reflection are desirable.
